

To the FDA:

RE: DOCKET NO. 98N-1265

I send this letter as a consumer of healthcare services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of the physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs. As a healthcare consumer, I should be able to have no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel. The MOU must be amended!

Signed: Jan H. Steider

State of Residence: Illinois

Comments:

By taking my physician's prescribed natural estrogen compounded for me in Wisconsin I am able to avoid increased allergies and constant headaches which occurred with chemically based mass produced synthetic estrogen.
Do not take this health choice from me!
